

New Source Review newspaper advertisements for construction permit applications, June 24, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: June 22, June 23, or June 24, 2004. Public notices are generally published every two weeks. The previous publication of public notices was June 8 – 10, 2004.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

FIRST APPLICANT

The first applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 03-0053-01/57327) for construction of an Electric Generating Facility to be located at 1550 Tom White Road, Big Sandy, TN 38221. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Thompson is the assigned Division person.

SECOND APPLICANT

The second applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 03-0054-01/57358) for construction of an Electric Generating Facility to be located at 992 Highway 70 East, Camden, TN 38320. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. R. Thompson is the assigned Division person.

For the Benton County "Camden Chronicle"--published once on or before Thursday, June 24, 2004.

FIRST APPLICANT

The first applicant is Campbell County Environmental Services with a mailing address of 745 Towe String Road, Jacksboro, TN 37757. They seek to obtain an air contaminant permit (Division identification number: 07-0132-

01/57372) for an Air Curtain Destructor located at the same address. This existing operation consists of equipment used to burn brush and clean wood. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. T. Blake is the assigned Division person.

SECOND APPLICANT

The second applicant is National Coal Corp. with a mailing address of 319 Ebenezer Road, Knoxville, TN 37923. They seek to obtain an air contaminant permit (Division identification number 07-0130-01/57374) to construct a proposed Coal Loading Facility at Old Highway 63, Caryville, TN 37714. This proposed operation would consist of coal stockpiles and crushing, conveying, transfer, and loading operations. Wet suppression would be used for control of particulates (TSP). There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

For the Campbell County "Lafollette Press"--published once on or before Thursday, June 24, 2004.

The applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 22-0115-01/57338) for construction of an Electric Generating Facility to be located at 141 Reliance Road, Dickson, TN 37055. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Y. Aleali is the assigned Division person.

For the Dickson County "The Dickson Herald"--published once on or before Thursday, June 24, 2004.

The applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 26-0102-01/57340) for construction of an Electric Generating Facility to be located at 6945 Spring Creek Road, Tullahoma, TN 37388. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. A. Pitcock is the assigned Division person.

For the Franklin County "Herald-Chronicle"--published once on or before Thursday, June 24, 2004.

FIRST APPLICANT

The first applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 27-0180-01/57343) for construction of an Electric Generating Facility to be located at 800 Industrial Drive, Trenton, TN 38382. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Fuss is the assigned Division person.

SECOND APPLICANT

The second applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 27-0181-

01/57344) for construction of an Electric Generating Facility to be located at 3645 East Mitchell, Humboldt, TN 38343. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Fuss is the assigned Division person.

THIRD APPLICANT

The third applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 27-0182-01/57345) for construction of an Electric Generating Facility to be located at 9903 Telecom Drive, Milan, TN 38358. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Fuss is the assigned Division person.

For the Gibson County "Milan Mirror-Exchange"--published once on or before Thursday, June 24, 2004.

The applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 28-0095-01/57341) for construction of an Electric Generating Facility to be located at 964 Elkton Pike, Pulaski, TN 38478. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. G. Latif is the assigned Division person.

For the Giles County "Pulaski Citizen"--published once on or before Thursday, June 24, 2004.

FIRST APPLICANT

The first applicant is Precision Flooring Products, Inc. with a mailing address of P.O. Box 3155, Morristown, TN 37814. They seek to obtain an air contaminant permit (Division identification number: 32-0229-01/57300) for a Run Wood Moulder located at 722 Trade Street, Morristown, TN 37813. This existing operation consists of equipment used for wood moulding. A pneumatic cloth dust collector is used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. K. McLain is the assigned Division person.

SECOND APPLICANT

The second applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 32-0230-01/57339) for construction of an Electric Generating Facility to be located at 1301 Technology Way, Morristown, TN 37814. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Butler is the assigned Division person.

For the Hamblen County "Citizen Tribune"--published once on or before Thursday, June 24, 2004.

The applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 35-0073-01/57342) for construction of an Electric Generating Facility to be located at 14007 State Highway 125 South, Bolivar, TN 38008. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Yousefzadeh is the assigned Division person.

For the Hardeman County "Bolivar Bulletin-Times"--published once on or before Thursday, June 24, 2004.

The applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 38-0073-01/57346) for construction of an Electric Generating Facility to be located at Tamm Drive, Brownsville, TN 38012. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Swinea is the assigned Division person.

For the Haywood County "States Graphic"--published once on or before Thursday, June 24, 2004.

The applicant is APAC Tennessee, Inc. with a mailing address of P.O. Box 13247, Memphis, TN 38113-0427. They seek to obtain an air contaminant permit (Division identification number: 39-0075-01/57386) to construct a Concrete Batch Plant Operation at Beach River Regional Airport, 750 Mt. Ararat Road, Lexington, TN 38351. This proposed operation would consist of gravel, crushed rock and sand stockpiles, a cement silo, a mixer, and associated equipment used to produce ready-mix concrete. A baghouse and wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted from this source. Mr. R. Benjamin is the assigned Division person.

For the Henderson County "Lexington Progress"--published once on or before Thursday, June 24, 2004.

The applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 40-0111-01/57336) for construction of an Electric Generating Facility to be located at 284 Plumley Drive, Paris, TN 38242. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. J. Attar is the assigned Division person.

For the Henry County "Paris Post-Intelligencer"--published once on or before Thursday, June 24, 2004.

FIRST APPLICANT

The first applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 49-0090-01/57360) for construction of an Electric Generating Facility to be located at 381 Highland Extended, Ripley, TN 38063. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical

construction. Regulated air contaminants would be emitted by this source. Mr. A. Yavari is the assigned Division person.

SECOND APPLICANT

The second applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 49-0091-01/57361) for construction of an Electric Generating Facility to be located at 2500 Beech Bluff Cemetery Road, Halls, TN 38063. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. A. Yavari is the assigned Division person.

THIRD APPLICANT

The third applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 49-0089-01/57362) for construction of an Electric Generating Facility to be located at 100 Pine Street, Ripley, TN 38063. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. A. Yavari is the assigned Division person.

For the "Lauderdale County Enterprise"--published once on or before Thursday, June 24, 2004.

FIRST APPLICANT

The first applicant is U.S. Silica Company with a mailing address of P.O. Box 187, Berkeley Springs, WV 25411. They seek to obtain an air contaminant permit (Division identification number: 57-0207-01/57381) for modification of an Industrial Sand Operation located at 105 Burkett Switch Road, Jackson, TN 38301. This existing operation consists of a rotary dryer, storage bins, and associated material handling and conveying used in the production of industrial sand. A dryer dust collector is used for pollution control. The requested modification is to add two new conveyor belts with an associated baghouse. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. M. Smith is the assigned Division person.

SECOND APPLICANT

The second applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 57-0287-01/57388) for construction of an Electric Generating Facility to be located at 215 Industrial Park Drive, Jackson, TN 38301. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Smith is the assigned Division person.

THIRD APPLICANT

The third applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 57-0288-01/57389) for construction of an Electric Generating Facility to be located at 190 James Lawrence Road, Jackson, TN 38301. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Smith is the assigned Division person.

FOURTH APPLICANT

The fourth applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 57-0289-01/57390) for construction of an Electric Generating Facility to be located at 809 Lexington Avenue North, Jackson, TN 38301. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Smith is the assigned Division person.

FIFTH APPLICANT

The fifth applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 57-0290-01/57391) for construction of an Electric Generating Facility to be located at 175 Oakfield Road North, Jackson, TN 38301. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Smith is the assigned Division person.

SIXTH APPLICANT

The sixth applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 57-0291-01/57392) for the construction of an Electric Generating Facility to be located at 2404 F. E. Wright Road, Jackson, TN 38301. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Smith is the assigned Division person.

For the Madison County "Jackson Sun"--published once on or before Thursday, June 24, 2004.

The applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 74-0126-01/57337) for construction of an Electric Generating Facility to be located at 250 Charles Ralph Drive, Springfield, TN 37172. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. S. Lodl is the assigned Division person.

For the "Robertson County Times"--published once on or before Thursday, June 24, 2004.

The applicant is Weyerhaeuser Company, Kingsport Mill with a mailing address of 100 Clinchfield Street, Kingsport, TN 37660. They seek to obtain an air contaminant permit (Division identification number: 82-0022-38/57282) for modification of their Bleach Plant located at 100 Clinchfield Street, Kingsport, TN 37660. This existing operation consists of a three stage bleaching process to whiten brown pulp. A liquid scrubber is used for pollution control. The requested modification is for an increase in the amount of chlorine dioxide emitted. There would be no physical construction. Regulated air contaminants emitted by this source would increase. Mr. Steven R. Simpson is the assigned Division person.

FIRST APPLICANT

The first applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 84-0098-01/57347) for construction of an Electric Generating Facility to be located at 255 Witherington Drive, Covington, TN 38019. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. D. Warden is the assigned Division person.

SECOND APPLICANT

The second applicant is MegaPower Energy Acquisition Corp. with a mailing address of P.O. Box 488, Covington, TN 38019. They seek to obtain an air contaminant permit (Division identification number: 84-0099-01/57348) for construction of an Electric Generating Facility to be located at 514 Ripley Street, Covington, TN 38019. The facility would consist of thirteen (13) natural gas-fired reciprocating internal combustion engines used in the generation of electric power. Oxidation catalysts would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. D. Warden is the assigned Division person.

For the Tipton County "Covington Leader"--published once on or before Thursday, June 24, 2004.

The applicant is Bouldin Corporation with a mailing address of P.O. Box 7113, McMinnville, TN 37111. They seek to obtain an air contaminant permit (Division identification number: 89-0108-01/56659) for operation of a Solid Waste Recycling Facility located at 904 Red Road, McMinnville, TN 37110. This existing operation consists of equipment used for recycling household garbage into a reusable fluff by heating. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. M. Ahmed is the assigned Division person.

For the Warren County "Southern Standard"--published once on or before Thursday, June 24, 2004.
